This newsletter is dedicated to the honor of all creatures great and small
Written & published by Susan Hamlin, Saratoga Animal Communication www.animal-whisper.com

Greetings from high summer! It's a warm day and we're just back from the water, where my Lab friend Sunny loves to "follow his bliss."

Swimming with a dog is one of life's great joys. I hope you're finding your way to natural places to do what brings you joy, too. Taking a moment to listen deeply to the sounds of water, birds, trees, sky. Taking a moment to appreciate wild places through the eyes of your own animal companions who can show us so much about being fluid with all life.

Lots going on so we'll get right to it: We're thrilled to announce a **brand new website** with a new design and more resources about animals and the human-animal bond. The site will grow and change with your feedback, so please visit www.animal-whisper.com and let me know what you think!

We received so much positive feedback from you all about the monthly videos that we've added a **video corner** to the **home page**. This month's video, **Dr. Alan Schoen**, is a deeply moving messge about the human-animal bond. I hope you have a moment to get to know this pioneer holistic veterinarian who has become a loving beacon for compassion among the species.

Please keep in touch, keep a song in your heart and a good friend at your side. May you and your animal companions walk in beauty, always.

Peace,
Susan Hamlin

New Website!!

~*

We are thrilled to announce our brand new website: www.animal-whisper.com at the same address you've been visiting before.

It's a growing resource for the human animal bond, holistic care, free articles, featured videos, reading suggestions for developing animal communicators, and much more. Please visit and tell us what you think!

~

Video of the Month - Dr Alan Schoen, the human-canine bond

~

Pioneer holistic veterinarian and author **Alan Schoen DVM** speaks about the human animal connection in this moving clip. His latest book, **"Kindred Spirits, How the Remarkable Bond Between Humans and Animals Can Change the Way we Live"** is a treasure. I read it on a plane and gave up trying not to show my natural human emotions.

To watch Dr. Schoen speak please click this link to the home page of our site and either click the video link or scroll down the page: www.animal-whisper.com

Workshops and Mentoring

~

With the website project finally behind, we will be catching up and setting up more workshops and mentoring for animal communicators. Workshops can be general or about a species so we can work more deeply with that group. People are asking about hosting a workshop in your area. It's a wonderful way to invite like minded people to share the experience with - and receive your class for free! Please contact us for more information.
